MEMORANDUM FOR: Antonio Pena (TNRCC)

FROM: Michael Dodyk
AFCEE/ERD
P.O. BOX 27008
FT WORTH, TX 76127-0008

SUBJECT: Notification of abandonment of monitoring wells
NAS Fort Worth JRB, Texas

Dear Mr. Pena:

The Air Force wishes to notify your office that the planned construction of petroleum storage tanks for a new gas station on the site of the former Carswell Air Force Base Service Station will result in the removal of two existing monitoring wells on the base. One of these wells, MW-BSSB, was used for long-term monitoring of groundwater contamination of AOC1. The other well, MW-4, was initially used for delineation purposes. These wells were slated for removal in the near future but now the construction contractor will be removing the wells within the next month. AFCEE is in the process of evaluating monitoring data to establish plume stabilization at AOC 1 and it may not be necessary to replace MW-BSSB. In addition, there are nearby wells that AFCEE believes would suffice for future monitoring purposes should that be required. We will notify you when the data analysis is complete and are ready to file the proper forms. We intend to insure that the contractor will follow the TNRCC regulations with regard to the proper plugging and abandonment of these wells.

If you have any question regarding this matter, please call me at 817-782-7167.

Sincerely,

A handwritten signature in black ink, reading "Michael Dodyk", is positioned above the typed name.

MICHAEL R DODYK, P.E.
